Business Leadership Information Session

50 Milk Street | Boston | January 23, 2018

At the Massachusetts LGBT Chamber of Commerce's first business leadership information session, more than 60 progressive business owners and executives met with the Chamber's board of directors to engage in a vibrant discussion about the group's mission, work and benefits of becoming charter partners and key business allies. As an advocate and link between business and government, the Massachusetts LGBT Chamber of Commerce seeks to promote economic growth and viability for LGBT-owned business throughout the Commonwealth.
